

## Year 6-Home Learning Tasks- SPRING TERM 2019

1. Create an image of a volcano that can go up on our home learning wall. Use paint, pastels or collage to make it look effective.

2. Make a 3-D volcano or earthquake and bring it in to show in assembly.

3. Create your own line of volcanic sweets- think of a name for them and then draw what they would look like, as well as describing what they taste like What happens when you eat them?

4. Write a poem in the style of your favourite poet.

5. Create your own volcano/earthquake quiz- if it is really great you can be the quiz master in class!

6. Plan a campaign to raise money for countries and regions affected by natural disasters like floods and earthquakes. How will you raise money to support families? How will you help to rebuild the area?

7. Can you make an earthquake cake or bread with a bit of hot spice?

8. Draw a poster showing the community how to stay safe in the event of a variety of natural disasters.

9. Write a newspaper report about something exciting that's happened at school.

10. How many words can you make out of

## EARTHQUAKES AND VOLCANOES

It is up to you to decide which home learning you would like to complete first.

Some tasks may take you longer than a week.

Tick off the tasks as you complete them.

Challenge: See if you can complete all 10 before the end of term.
