

A Very Big Thank you

To all the parents and carers who came to the

Miss Corsan Computing co-ordinator and Sarah Feeney Pastoral Lead

Parent and carer attendance at these coffee mornings and workshops is highly valued by staff and children and supports the shared learning of our whole community here at West Hill Primary.

The workshop continued the conversation the children were having during Internet Safety Week. How do we ensure that we use the internet in a way that is Responsible, Respectful, Critical, Creative and above all Safe?

Parent and Carers are key to ensuring that their children and family are fully informed , knowledgeable and aware of the benefits of the internet and the risks of using the internet particularly around sharing information and images on the internet.

Below we have provided links to the websites used at the Workshop for accessing parent /carer resources to support the learning conversation that is ongoing inside and outside the classroom.
